

SCHOOL OF NURSING, MIDWIFERY AND PARAMEDICINE
Graduate Certificate in Diabetes (GC-DIABET)
Clinical placement form

As a part of the Grad Cert Diabetes, you will undertake a clinical practicum of 80 hours as a Student Diabetes Educator. This clinical placement is a component of the final unit, NURS5024 Diabetes Professional Practice. To assist the School with arranging clinical placements, you are required to complete this nomination form and submit as part of your application.

To complete this form, you will need to:

- A) Select a placement site from the list attached,
OR
- B) Nominate another site. Contact your nominated placement site and identify who will be your preceptor at the site and provide the information *including contact details* below.

This form enables the School to liaise with your nominated Preceptor and site, ensuring their suitability for placement as per the requirements below, and commence the process of confirming placement in a timely manner for both students and staff at the site.

Placement Requirements:

The Australian Diabetes Educators Association (ADEA) (<http://www.adea.com.au/>) requires students to be exposed to a variety of clients with diverse needs. These include people:

- With different types of diabetes.
- At various life stages (children, adolescents, transition to adult services, adults, elderly).
- At various disease stages (newly diagnosed, managed with oral hypoglycaemic agents, initiation of insulin therapy, complications).
- With special needs (ATSI, CALD, disabilities).

In addition, you also need to gain insight into different interventional approaches used with individuals and groups. Please take this into consideration when nominating your preference for placement.
