

Self Identify Prerequisite unit(s)

Your course has prerequisites which are part of the course entry requirements and can be found in the [Curtin Handbook](#). This example applies to the Master of Nursing Practice applicants only:

Essential course prerequisites

You must hold a recognised bachelor degree or graduate degree with a high course weighted average (greater than 70 per cent). It is essential that you have successfully completed a research unit and a human biology-related unit at tertiary level.

You must self-identify unit you have or are in the process of completing which you consider to meet these specific unit prerequisite requirements.

Important note: Please ensure you only upload the unit outlines for all units entered in the list below with your application.

An example on how to complete this form.

Prerequisite title: HUMAN BIOLOGY	Grade Achieved
Introduction to Human Biology	HD
Human Development Biology	D

HUMAN BIOLOGY	Grade Achieved

RESEARCH	Grade Achieved
