

Self Identify Prerequisite unit(s)

Your course has prerequisites which are part of the course entry requirements and can be found in the [Curtin Handbook](#). This example applies to the Doctor of Physiotherapy applicants only:

Specifically, applicants require a relevant bachelor degree or equivalent and completion of units at a tertiary level in 1. musculoskeletal anatomy, 2. human biology or physiology and 3. health research methods or evidence-based practice.

You must self-identify unit you have or are in the process of completing which you consider to meet these specific unit prerequisite requirements.

Important note: Please ensure you only upload the unit outlines for all units entered in the list below with your application.

An example on how to complete this form.

Prerequisite title: ANATOMY	Grade Achieved
